

the owl box

Wildlife Boxes

Bat Boxes

The boxes are made out of untreated soft wood with no preservatives on it as recommended. The lid is removable for inspection. The front and back inside surfaces are covered with grooves.

Dormouse Box

The dormouse box is similar to the tit box but has the entrance hole in the back.

Garden Bird Boxes

Tit Nest Box

Robin Nest Box

The Tit Box comes with 25mm hole and is preferred by most of the Tit Family, Redstarts, and Tree Sparrows. Pied Flycatchers like a 30mm hole

Both boxes are **natural wood only**

The Robin Box is suitable for Robin's and other such birds that like an open box such as pied wagtails and spotted flycatchers
